EXAMINER'S COMMENT

1. The drawings filed on 2/8/02 are acceptable subject to correction of the informalities indicated below and on the attached "Notice of Draftsperson's Patent Drawing Review," PTO-948.

Figure 1 -- the word "drawing" should be removed from the figure.

Figure 5 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawing sheets are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

In order to avoid abandonment of this application, correction is required in reply to the Office action. The correction will not be held in abeyance.

2. The following is an examiner's statement of reasons for allowance: The prior art of record fails to disclose or suggest forming a recess at the base of a spigot, wherein the spigot has a saddle portion with a collar portion projecting from the saddle portion and wherein the recess is formed only on along a collar portion side of the circumference of the base of the spigot or trunk portion.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
